Yuzu Africa Brand Bible

Version 1.0 · October 2026 · For the Yuzu Africa digital marketing team (internal)

1. How to use this document

This is the single source of truth for how Yuzu Africa looks, sounds and behaves in public. If you are posting, designing, scripting, replying to a comment or briefing a creator, check here first. If something is not covered, use the principles in Sections 2 to 4 and ask before publishing.

Three rules sit above everything else:

1. **Sell, don't just post.** Every piece of content should connect to a lead, a sale, a skill or a story that earns trust.
2. **Sound like us.** Confident, direct, warm, Nigerian. Never generic agency-speak.
3. **Look like us.** Use the logo, colours, fonts and templates exactly as set out in Section 6.

2. Who we are

2.1 Brand in one line

Yuzu Africa is the full-funnel growth partner for Nigerian brands, taking them from scroll to sale.

2.2 Mission

To help Nigerian and African businesses grow with marketing that actually closes sales, backed by real-world execution and the training to keep growing.

2.3 Vision

To be the most trusted full-funnel marketing and sales partner for growing brands across Africa.

2.4 Positioning statement

For Nigerian SMEs and growing brands that need results, not just content, Yuzu Africa combines sharp digital storytelling with real-world sales execution (telesales and offline agents) and hands-on training, so growth does not stop when the retainer does.

2.5 What we offer

Service pillar	What it means	Who it is for
Digital Marketing & Branding	Strategy, social media management, paid ads, brand identity and guidelines	Every client; our foundation offer
Affiliate & UGC	Creator sourcing, UGC content packs, affiliate programme setup and tracking	D2C and e-commerce brands
CRM / Telesales	Lead capture, WhatsApp and CRM pipelines, outsourced telesales scripts and calls	Brands with leads that are not converting
Offline Agent Management	Recruiting, training and managing field and offline sales agents	FMCG, fintech, real estate, retail
Training	Workshops that build the client's own team in social media, sales and agent management	Clients who want in-house capability

2.6 Why we are different

- **Full funnel:** content, creators, calls and field agents under one roof. Most competitors stop at posts and ads.

- **Boutique and fast:** founder-led decisions, no layers of approval.
- **We teach:** clients leave stronger than they arrived, which builds loyalty and repeat work.

2.7 Who we talk to

Audience	What they care about	What we say to them
Founders of early-stage D2C brands (beauty, fashion, food)	Visibility, trust, first sales	"Your content should sell, not just look nice."
Brands with offline or agent networks (FMCG, fintech, real estate)	Reach, agent performance, conversion	"We run the field so you can focus on the product."
Service businesses (education, health, property)	Quality leads, brand credibility	"Stop paying for likes. Start paying for leads."
Prospective hires, interns and creators	Learning, growth, fair opportunity	"Build real skills on real campaigns."

3. Brand personality and values

3.1 Personality

If Yuzu Africa were a person, she would be the sharp, funny, gen z friend who runs a successful business and tells you the truth about your marketing, then helps you fix it. Bright, bold, quick-witted, generous with knowledge, never arrogant.

We are	We are not
Confident	Arrogant
Direct	Rude or blunt for effect
Warm and witty	Silly or unprofessional
Data-aware	Jargon-heavy
Proudly Nigerian and African	Imitating foreign agency styles

3.2 Core values

1. **Proof over promises.** Lead with a number, a result or a real example.
2. **Full funnel always.** Tie every campaign to an outcome beyond likes.
3. **Local fluency.** Nigerian humour, culture and market realities shape our work.
4. **Lean and fast.** We move quickly, test, learn and improve.
5. **Teach to win.** Sharing knowledge builds trust and long-term clients.

4. Voice and tone

4.1 Voice (always the same)

- Short sentences. One idea at a time.
- Active verbs. Say what we do, not what "can be done".
- Specific beats vague: "3 mistakes killing your Instagram sales" beats "tips for social media".
- A little cheeky, never careless.
- Plain English first. Light Nigerian expressions and Pidgin where it fits the audience and platform.

4.2 Tone (changes with context)

Context	Tone	Example
TikTok and Reels	Playful, fast, punchy	"Your page is giving 'we sell everything'. Let's fix that."
Instagram carousels	Helpful, clear, confident	"Here are 5 reasons people follow you but never buy."
LinkedIn	Professional, insightful, human	"Most Nigerian brands lose sales between the DM and the follow-up. Here is why."
X	Quick, witty, conversational	"Hot take: followers don't pay rent. Customers do."
Client proposals	Polished, evidence-led, warm	"Based on your last 30 days, here is where we would start."
Replies to complaints	Calm, accountable, solution-first	"Sorry about that. Please DM us your details and we will fix it today."

4.3 Language guidelines

- **Nigerian English** spelling is not required; use clear international English spelling (organisation or organization are both acceptable, but be consistent within a piece).
- **Pidgin and slang:** use sparingly and only where the audience will relate. Never use it in client proposals or formal LinkedIn posts.
- **Emojis:** 1 to 3 per post. Preferred: . Avoid overuse and anything ambiguous.
- **Hashtags:** 3 to 5 per post on Instagram and TikTok, 2 to 3 on LinkedIn, 1 to 2 on X.
- **Naming:** always write **Yuzu Africa** (two words, capital Y and A). Never "YUZU" in running text, "Yuzu Afrika" or "Yuzu africa".

4.4 Words we use and avoid

Use	Avoid
grow, sell, convert, close	synergy, leverage, ideate, disrupt
your customers	the target demographic
results, proof, numbers	best-in-class, world-class
we will do X by [date]	we will try our best

5. Messaging

5.1 Taglines

Primary: *Marketing that closes.* ·

Secondary: We don't just post. We sell.

Tertiary: · *Zest for growth.*

5.2 Elevator pitch (20 seconds)

"Yuzu Africa helps Nigerian brands grow from the first scroll to the final sale. We create the content, find the creators, call the leads and manage the field agents, then train your team so growth keeps going."

5.3 Boilerplate (use in press, partner decks and bios)

Yuzu Africa is a full-funnel marketing and sales partner for African brands. We combine digital marketing and branding, affiliate and UGC campaigns, CRM and telesales, offline agent management and team training to take businesses from awareness to revenue.

5.4 Key messages by pillar

- **Digital Marketing & Branding:** Look sharp, sound clear, show up everywhere your customers are.
- **Affiliate & UGC:** Real people selling your product builds more trust than any ad.
- **CRM / Telesales:** Leads are worthless until someone follows up. We follow up.
- **Offline Agent Management:** Your field team should perform like a system, not a gamble.
- **Training:** We make your team better, not dependent on us.

5.5 Brand hashtags

#YuzuAfrica · #ScrollToSale · #YuzuZest · #NaijaBrandsGrow · plus topic hashtags (see platform sections).

6. Visual identity

6.1 Logo

The Yuzu Africa logo is a bold mark in purple, magenta, orange and yellow paired with the "Yuzu Africa" wordmark.

Always:

- Use the master logo files supplied by the brand lead. Never redraw, retype or recolour them.
- Keep clear space around the logo equal to the height of the "Y" in the wordmark.
- Use the full-colour logo on white, off-white or very light backgrounds.
- Use a single-colour white or dark version on busy photos or dark backgrounds.

Never:

- Stretch, squash, rotate or add shadows or outlines.
- Place the logo on backgrounds that reduce legibility.
- Change the logo colours or swap the font.
- Use a minimum size smaller than 24 px in height on screen.

6.2 Colour palette

Our palette is taken from the logo: purple, magenta, orange and yellow.

> ***Important:*** *the hex values below are working values for design and need to be confirmed. The brand lead should eyedrop the exact codes from the master logo file and replace this table so everyone uses identical colours.*

Colour	Role	Working hex (confirm)
Purple	Primary brand colour, headlines, backgrounds	#5B2A86
Magenta	Primary accent, key highlights, buttons	#D6246E
Orange	Secondary accent, energy, callouts	#F58220
Yellow	Highlight, icons, small accents (the "zest")	#FFC20E
Off-white	Main background	#FAF7F2
Charcoal	Body text	#222222

Usage ratio: roughly 60% off-white and white, 20% purple, 15% magenta and orange combined, 5% yellow. Yellow is a spark, not a background.

Accessibility: body text must be charcoal on light or white on purple. Never put yellow or orange text on white.

6.3 Typography

Use	Font (free on Canva and Google Fonts)	Notes
Headlines	Poppins Bold or Sora Bold	Large, confident, sentence case or title case
Subheadings	Poppins SemiBold	
Body	Inter or Poppins Regular	Minimum 28 px on social graphics
Accent (sparingly)	Poppins Italic	For quotes and callouts

No more than two typefaces on any one graphic.

6.4 Imagery and graphic style

- **Photography:** bright, natural light, real Nigerian settings and people. No generic stock photos of Western offices.
- **People:** diverse, authentic, in work or celebration moments. Always get consent for client or creator photos.
- **Graphics:** bold colour blocks, rounded shapes, clean layouts, plenty of white space.
- **Icons:** simple line icons in a single brand colour.
- **Motion:** quick cuts, kinetic text, on-beat transitions. Keep the first two seconds visually striking.
- **Avoid:** cluttered layouts, more than three colours per graphic, heavy gradients, low-resolution images.

6.5 Templates

1. Education carousel
2. Quote or stat card
3. Before and after / case study
4. Testimonial
5. Service spotlight
6. Promo and call-to-action
7. Story (poll and question)
8. Video cover and thumbnail
9. LinkedIn document post
10. Reel and TikTok end card with logo and CTA

Only use approved templates for client-facing and brand posts. New templates must be approved by the brand lead first.

7. Content pillars

Pillar	Purpose	Example
Marketing Education	Build authority; most shareable	"3 mistakes killing your Instagram sales"
Service Spotlight	Explain one service clearly	"What does an offline agent manager actually do?"
Trend and News Reaction	Ride the algorithm and show cultural fluency	Trending audio with a marketing lesson
Founder and Behind the Scenes	Humanise the brand	"Why we started Yuzu Africa"
Client Wins and UGC	Proof and conversion	Before and after case study
Community and Engagement	Boost comments and shares	Polls, this-or-that, fill-in-the-blank
Promo and CTA	Generate leads	"Book a free brand audit"

Weekly mix guide: 40% education and service, 25% proof and client wins, 20% trend and engagement, 15% promo. Never run more than two promo posts in a row.

8. Platform guidelines

8.1 Summary

Platform	Role	Primary content	Suggested cadence
TikTok	Growth engine and reach	Short videos, trends, avatar talking-head clips	1 to 2 posts a day
Instagram	Credibility and portfolio	Reels, carousels, stories, highlights	1 post a day plus daily stories
LinkedIn	B2B authority and leads	Insight posts, document carousels, case studies	3 to 4 posts a week
X	Conversation and trend jacking	Short takes, threads, quote posts	1 to 3 posts a day
Facebook	Local reach and older audiences	Cross-posted Reels, community posts	3 to 5 posts a week

Platform	Role	Primary content	Suggested cadence
WhatsApp Business	Close and retain	Status updates, broadcast lists, CRM follow-up	Status daily; broadcasts at most weekly

8.2 Profile basics (keep identical across platforms)

- **Handle:** @yuzu_africa everywhere. If taken, use @yuzuafrica or @yuzu.africa and apply the same version on every platform.
- **Display name:** Yuzu Africa | Marketing Agency Nigeria (adjust to fit each platform limit).
- **Profile picture:** the logo mark on a clean background.
- **Link:** one trackable link (website or link-in-bio page) with a WhatsApp contact option.

8.3 Bio copy (copy and paste)

Instagram (up to 150 characters): Full-funnel marketing for Nigerian brands .Content · CRM/Telesales · UGC · Agent Mgt. Marketing that Closes .Book a free audit

TikTok (up to 80 characters): Marketing that closes .Nigerian brands, from scroll to sale. Free audit.

X (up to 160 characters): Full-funnel marketing and sales for Nigerian brands. Content, UGC, CRM/telesales, offline agents and training. From scroll to sale.

LinkedIn tagline (up to 120 characters): Full-funnel marketing agency for Nigerian brands: content, UGC, CRM/telesales, offline agent management and training.

WhatsApp Business description (up to 139 characters): Yuzu Africa: full-funnel marketing for Nigerian brands. Content, CRM/telesales, UGC and agent management. Message us to start.

8.4 Platform-specific rules

TikTok

- Hook within the first 1 to 2 seconds with a specific, surprising claim or question.
- Videos of 15 to 45 seconds perform best for education; use captions on every video.
- Use trending audio only if it is licensed for business accounts; check the commercial music library.
- Pin videos: who we are, our best educational video, our offer, e.t.c

Instagram

- Reels lead growth; carousels lead saves and credibility; stories lead conversation.
- Keep captions skimmable: hook line, 3 to 5 short lines, CTA.
- Maintain highlights: Services, Results, Free Audit, Team, FAQs.
- Reply to every comment in the first hour where possible.

LinkedIn

- Lead with an insight or story, not a sales pitch.
- Document (PDF) carousels perform well for frameworks and case studies.

- Founder and team may repost the company page; the page should never be silent for more than a week.

X

- One idea per post. Add a sharp opinion or a useful tip.
- Engage in relevant Nigerian business and marketing conversations daily.
- Never argue with trolls; mute or ignore.

Facebook

- Repurpose Reels and carousel images. Add a short, friendly caption and a clear CTA.
- Moderate comments daily and use Messenger replies for lead capture.

WhatsApp Business

- Set a greeting message, away message and quick replies (pricing, services, booking).
- Label contacts: New lead, Quoted, Won, Lost.
- Only message people who have opted in. No spam.

9. Founder and AI avatar content

The founder's face and voice appear in some content through an AI avatar and voice clone, so that talking-head videos stay consistent without live filming.

- Only use the approved avatar and cloned voice created by the brand lead.
- Scripts must be reviewed and approved before generation. The avatar must never say anything the founder would not say in person.
- Keep videos short (30 to 60 seconds), with one idea and one CTA.
- Where a platform requires labelling of AI-generated content, apply the platform's AI label.
- Do not use the avatar for client endorsements, testimonials or claims about specific results.
- Never create avatars or voice clones of anyone else without their written consent.

10. UGC, creators and affiliates

10.1 Creator brief checklist

1. Brand and product, with a one-line summary.
2. Objective (awareness, traffic, sale).
3. Key message and mandatory talking points.
4. Format, length and platform.
5. Do's and don'ts.
6. Deadline, deliverables and number of revisions.
7. Payment terms and usage rights (how long and where we can use the content).

10.2 Rules for creators and affiliates

- Content must be original and must not use copyrighted music or imagery.

- Paid or gifted partnerships must be clearly disclosed (#ad, #sponsored or the platform's paid partnership label).
- No exaggerated, false or unverifiable claims, especially for health, beauty and finance products.
- We keep the right to request edits before anything goes live.
- Pay promptly and as agreed. Our reputation with creators is part of our brand.

11. Community management

Situation	Response time	How we respond
Question or lead in comments or DMs	Within 1 hours in working hours	Friendly answer, move to DM or WhatsApp, capture details
Compliment or testimonial	Within 2 hours	Thank them; ask permission to share
Complaint or negative comment	Within 1 hour	Acknowledge, apologise where due, take it to DM, resolve
Spam or abuse	Immediately	Hide, delete or block; do not engage
Legal threat, serious accusation or press enquiry	Do not reply	Escalate to the founder right away

12. Approvals and governance

Content type	Who approves	Turnaround
Routine posts from approved templates	Digital marketing lead	Same day
Founder or avatar videos	Founder and brand lead	24 hours
Client work, case studies and testimonials	Founder plus written client consent	48 hours
New campaign, partnership or paid collaboration	Founder	48 to 72 hours
Crisis or sensitive topic	Founder only	Immediate

12.1 Pre-publish checklist

- ☐ Spelling, grammar and facts checked
- ☐ Logo, colours and fonts match this guide
- ☐ Hook is in the first line or first two seconds
- ☐ One clear CTA

- ☐ Hashtags and handle tags are correct
- ☐ Music and images are licensed or original
- ☐ Client or creator consent obtained where needed
- ☐ Captions or subtitles added to video
- ☐ Scheduled in the content calendar and tracked

13. Compliance and ethics

- Respect copyright. Use only licensed music, fonts, images and footage.
- Keep client information confidential. Never post client data, results or screenshots without written permission.
- Make no guaranteed-result claims such as "100% sales" or "10k followers guaranteed".
- Follow platform advertising policies and Nigerian advertising regulations and disclosure requirements.
- Avoid political, religious and tribal controversy on brand channels. Stay respectful and inclusive.
- Protect personal data. Never share phone numbers, DMs or customer details publicly.

14. Measuring success

Metric	Why it matters	Review
Follower growth by platform	Reach and momentum	Weekly
Engagement rate (comments, shares, saves)	Content quality	Weekly
Video watch time and completion	Hook and story strength	Weekly
Link clicks and profile visits	Intent	Weekly
Inbound DMs and leads	Business impact	Weekly
Proposals sent and accepted	Sales conversion	Monthly
Top-performing pillar and format	What to double down on	Monthly

Every month, review the top three and bottom three posts and write down one lesson from each.
